

Section 7 – Amministrazione e politiche pubbliche

Panel 2. Non-mainstream parties local policies in Europe.

Chairs: Maria Stella Righettini, Fabrizio Tonello

What do new parties when they win elections at the local level? This is a question rarely explored in the literature about public policy. Therefore, our panel will explore the public policies implemented by "populist" parties in various European countries at the local level. Papers will deal with local administrations led by M5S and Lega Nord in Italy, Front National in France, Podemos in Spain. Other experiences in different countries of the European Union will be welcome.
